

INDUSTRIAL APPLICATIONS

No PLUMBING
Easy INSTALLATION
No Salt or CHEMICALS

Save ENERGY
Save WATER
Zero MAINTENANCE

ABOUT US

Sunway Technologies Pvt Ltd are manufacturers , Importer and Distributors of Indian and International Brands of Water Descalers. We are a strong Team of experienced Professionals in the Industry with more than 15+ Years of Real-World Experience

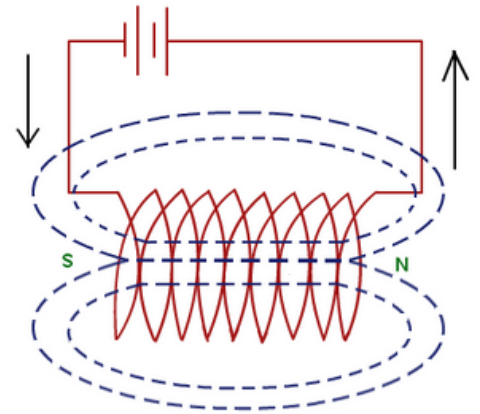

Strength: Our Directors had Experience of more than 25 Years in India and Abroad in various Industry. We have Experience of doing Projects across India in different States

Aqua Turbo Water Descaler

Aqua Turbo Water Descaler is been Manufactured by Sunway and Supplied throughout India. Aqua Turbo Offers an Eco-Friendly Electromagnetic Technology that comes with an outstanding quality Commitments with Five-Year warranty.

Working Principle

Aqua Turbo Water Descaler is a Electro Magnetic Device which physically Descales the water. Controlled By modulating high frequency flex wave that neutralize the bonding ability of minerals that are contained in our water. This field effectively agitates different size molecules likely to form scale & to break the bonds between molecules & the water

Benefits of Aqua Turbo Water Descaler for Industries

Cost Savings

Improved Equipment Lifespan

Enhanced Operational Efficiency

Eco-Friendly & Sustainable

- Prevents Hard Scale from cooling tower, chiller/condenser, Heat exchanger and pipe lines.
- Reduce the Usage of chemicals in many areas
- High Energy Savings (Power Saving)
- Control Algae and Bacteria
- Reduce Carbon footprints
- No Maintenance & ROI within 3-6 months

Application Areas

Manufacturing Industries

Injection Moulding

Cooling towers & Heat Exchangers

Chillers and condensers System

Boilers
